Siri Tips

Correct Input with keyboard

Wolfram Password

Ask Siri the following questions and she'll give you a wry or self-referential answer.

The song one is my personal favorite.

- * Can you make me a sandwich?
- * Take me to your leader
- * Sing a song
- * Beam me up
- * Open the pod bay doors
- * I can do this all day long
- * I need to hide a body
- * Talk dirty to me
- * How much wood could a woodchuck chuck if a woodchuck could chuck wood?
- * Who's on first?
- * What's the answer to the Universe?

The following will get you some interesting, funny answers from Wolfram Alpha, Siri's data source. Apparently data algorithms have a sense of humor, as well, though it runs toward the geeky, Sheldon variety.

- * Where do babies come from?
- * When will the world end?
- * Is Santa Claus real?
- * When will pigs fly?

And for the directly humorous, and down-right groan worthy fans among us, ask Siri the following questions. Be prepared to slap your knee!

- * Tell me a joke
- * Knock knock
- * Testing 1 2 3
- * You're funny
- * Set 5 AM alarm followed by Cancel 5 AM alarm
