

OS 11 for iPad, February 19, 2018 by Mitchell Bryars

The focus of the first course will be on the iPhone. The second will be primarily for iPad.

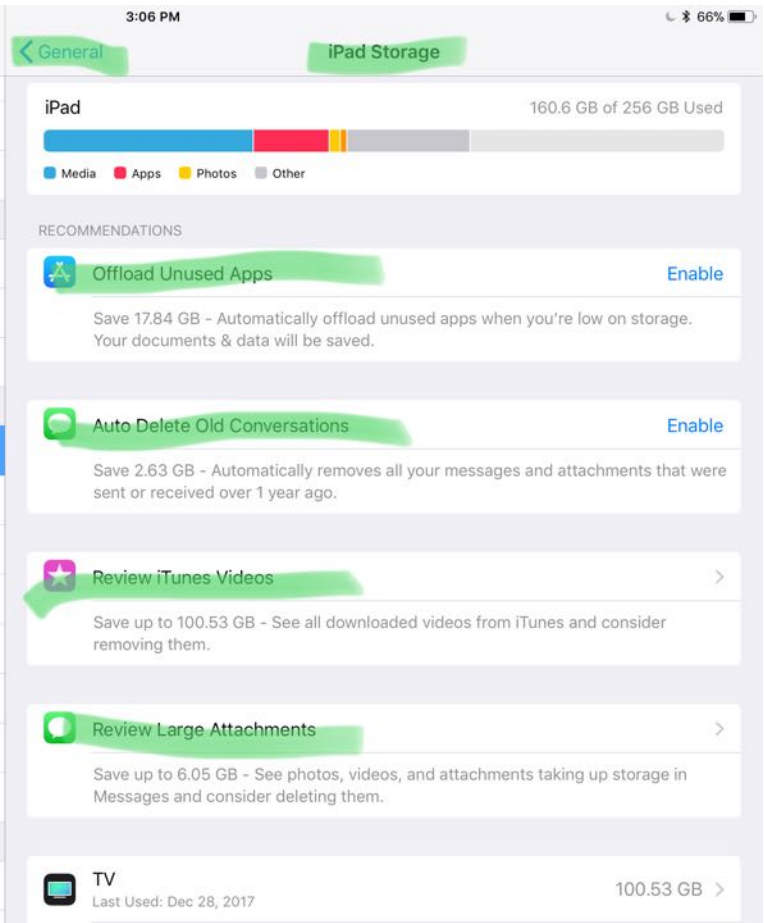

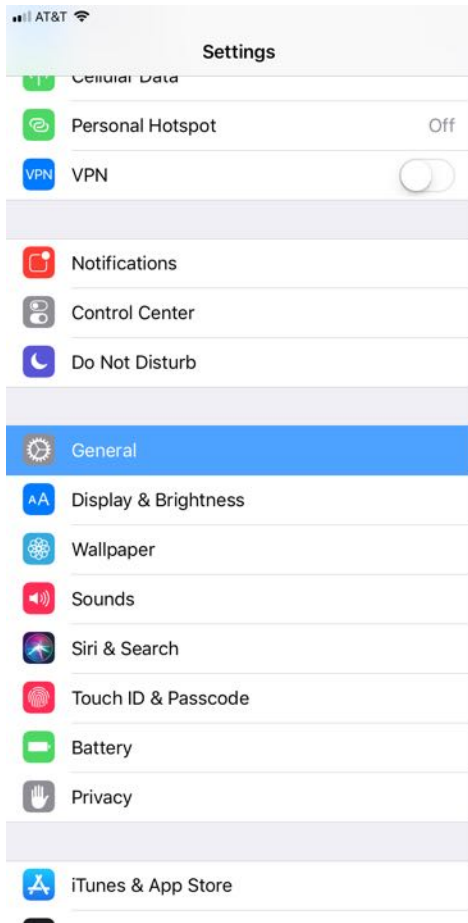

These courses will cover new features in Siri, iCloud, Notes, Safari, the keyboard, Messages, Maps, Mail, News, Photos, the camera, and the App Store. The redesigned Control Center, screen recording on the iPhone and iPad, marking up screenshots, and the new Files app will be reviewed. In addition, features unique to iPad such as the new dock, slide over and split view and drag/drop will be reviewed.

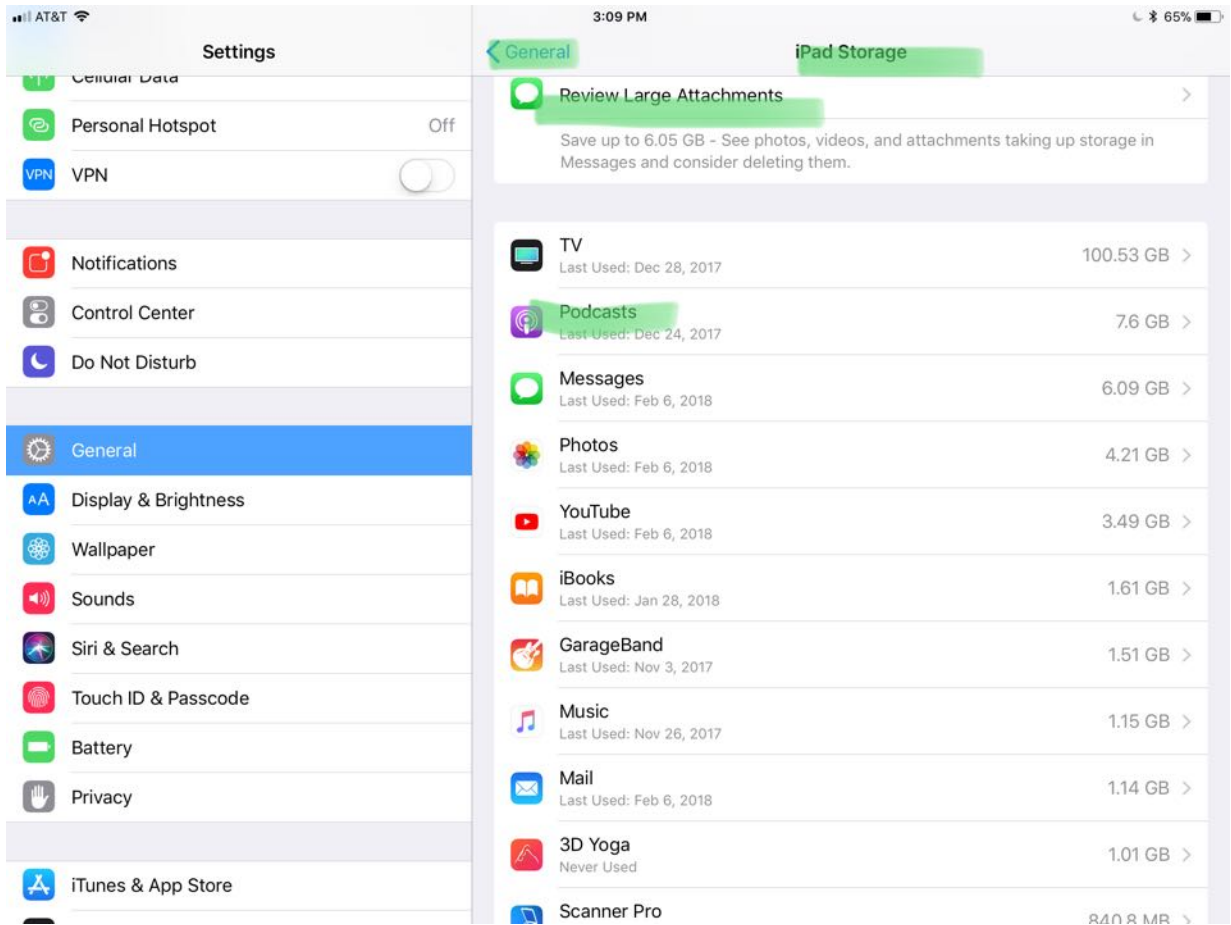

1. **Settings you Should Consider Changing.** <https://youtu.be/6TkqMVeVVa0>
1. Settings-Privacy-Advertising-Limit Ad Tracking. 2. Also under Privacy-Analytics-turn off Share Analytics. 3. Again in Privacy-Location Services-at the bottom, System Services, turn off Location-based Apple Ads 4. 5. Also at the bottom of the page, turn off all Product Improvements. 6. Settings-iTunes & App Store-InApp Ratings & Reviews, turn off. 7. In the same area, review Video Autoplay, suggest turning off. 8. Settings-Touch ID Passcode-Change Passcode, make at least 6-8 numbers. 9. Also in this area go down to Allow Access When Locked, you may want to turn off Today View, Siri, Home Control and Return Missed Calls. 10. Turn on Two-factor Authentication, in Settings click on your name at the top, then Password & Security and turn on Two Factor Authentication. 11. Settings-Display & Brightness, set to 1 minute or less. The lower it is set the more secure your phone will be. 12. Night Shift under Settings- Display & Brightness-Night Shift, setup as desired. 13. Click on Apple ID at the top then iCloud and Find My iPhone and select Send Last Location.
2. **New Control Center, features and how it can be customize. How to rearrange controls. Demo.**

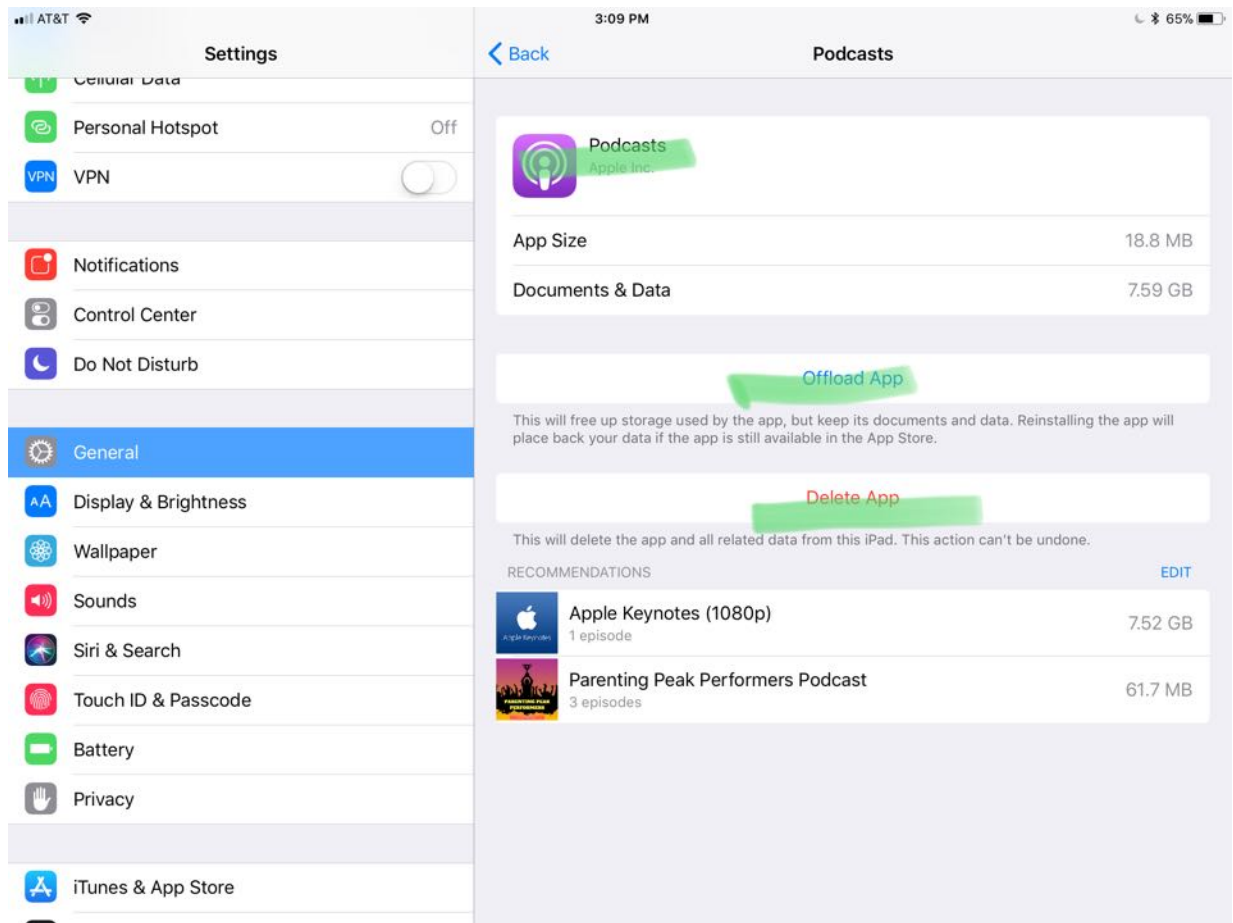

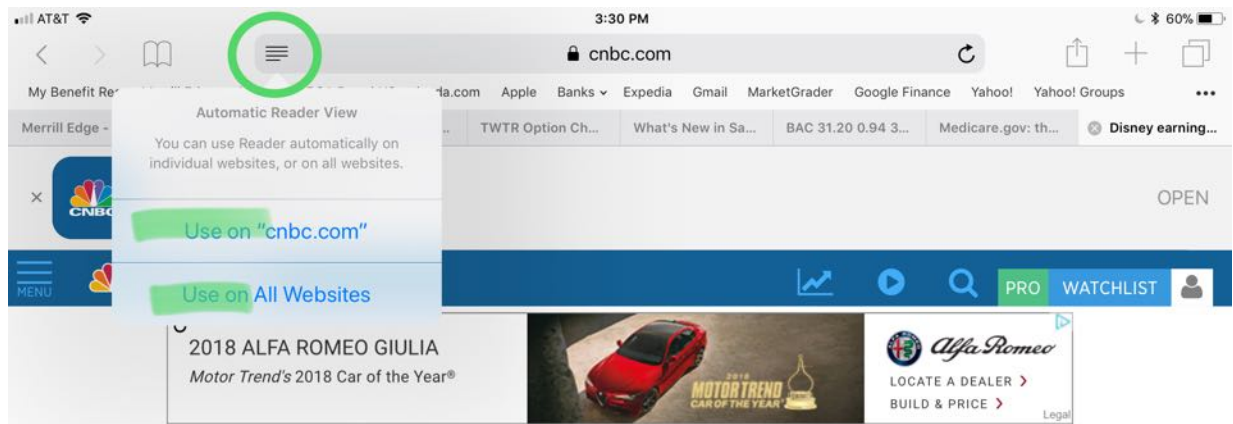

3. Screen recording. How to record your screen on the iPhone & iPad. Screenshots on the iPhone & iPad.
4. Screenshots on the iPhone & iPad. How to take screenshots, annotate and share. Press the Screen Sleep/Wake button and Home button at the same time. Demo
5. Notifications on the iPhone & iPad. Play Video
6. Siri on the iPad with iOS 11 including Siri's new voice, type to text, and translation. Play Video
7. New storage options we have on the iPhone with iOS 11 including how we can free up space by offloading apps while keeping an app's settings.

8. What's new in the Notes app including how we can scan documents with the camera. Also recently deleted, new tools and more. Play Video
9. Safari on the iPad including new Reader View options and tracking options. Review of Safari settings. Settings-Safari.
